## Handcrafted American Artistry. . . Your Personal Style

Dear Fenton Jewelry Fans and Dealers,

To bring you our new line in the most beautiful and detailed way, we have developed this electronic catalog. Presenting our new product in this way allows more close-ups, more explanation about the design and production process, more ideas on how to use the jewelry, and the ease of sharing this catalog with your friends and customers.

Following the trend to simplify shopping, the majority of this offering is finished, assembled jewelry at affordable prices. However, there are a few outstanding new designs of glass art that are also available as individual pendants that can be combined with Fenton's sterling accessories.

As we do in every new grouping, we highlighted many different glass techniques and intricate decorations from our skilled artists. Our talented jewelry making team has created a collection to suit *your* personal expression. . . with the finest in colored art glass. You should especially check out our *Abyss* necklace that uses sheets of silver to get its intense colors and the new bracelets using various leather colors and combinations. Jena Lane Blair designed all of the jewelry and glass treatments and Truda "TJ" Mendenhall designed the hand applied decorations.

Enjoy our new collection of handmade in America glass jewelry.

Best regards,

*George W Fenton*  
George Fenton

## Leather Bracelets. . .

Fenton Jewelry is pleased to offer made in the USA wide leather bracelets featuring handcrafted Impression beads.

These handmade rich, soft leather bracelets adjust from 6" to 8" to fit most wrist sizes. Because of the handmade process, the Impression bead size may vary, averaging 1 1/4" long.

The generously sized glass beads are an impressive centerpiece on these comfortable bracelets.

*Create it, wear it, love it!*

*Vasa Murrhina*. . . a term which means “vessel of gems.” Tiny bits of colored glass add a variety of hues in each different design, and no two are identical! A fine layer of glittering goldstone is applied over the colored glass which is then cased in crystal. Our bead makers must use extreme care to maintain the goldstone’s sparkle in the hot flame. This difficult process is one of the secrets of Fenton quality and the brilliance of its beads.

### 11560 **Kalico Kitty (Brown) Leather Bracelet**

Our *Kalico Kitty* Impression glass bead features the soft hues and swirls of tan and brown colors with golden accents. Jena’s design was inspired by a soft kitten named Snickers. This bracelet has antique brass accents on soft brown leather.

### 11563 **Sonata on Sapphire Leather Bracelet**

The *Sonata on Sapphire* design reminded Fenton jewelry designer Jena Lane Blair of “vibrant notes of blue kissed with gold.” This bracelet has antique pewter accents on soft black leather.

### 11562 **Tranquil Pond Leather Bracelet**

*Tranquil Pond* Impression glass bead features still pools of blues and greens with golden accents. This bracelet has antique pewter accents on soft black leather.

### 11561 **Wisteria Leather Bracelet**

*Wisteria* Impression glass bead features soft hues and swirls of purple colors with golden accents. This bracelet has antique pewter accents on soft black leather.

## Clasp & Go Leather Cord Bracelets . . .

Fenton Jewelry is pleased to offer made in the USA *Clasp and Go* bracelets featuring popular Fenton Art Glass colors paired with coordinating leather bands. Each bracelet has an extender chain which will accommodate most wrist sizes. Look for these unique styles among our *Clasp & Go* selections:

- *Sundance*. . . three dimensional hot glass design with hand applied ceramic decoration
- *Walk on the Beach*. . . sand-colored ivory glass is carefully accented with fine threads layered into different hues of blue to form the waves, pools and wet footprints of this beautiful bead.
- *Meraki*. . . a term meaning to “put something of yourself” into whatever you do. . . perfect inspiration for Jena’s delicately swirled blue/green “glass on glass” design.

Try this tip for fastening your bracelet: Lay the chain on your palm and hold the end with your last two fingers. Wrap the bracelet around your wrist, then hook the clasp on to the chain!
